ABOUT THE ALUMNI TEAM

To further the legacy of 44 successful batches, the Alumni Team, one of the oldest councils of SIBM Pune, acts as a bridge between our esteemed Alumni and their Alma Mater. Our purpose is to continue to drive the prestigious Alumni Network and ensure that they know how invaluable their presence and support is, to the institution and to us. The Alumni are what build the foundation of the large association that is the face of SIBM Pune to the outside world, and as the Alumni Team, we aspire to keep them in touch with their roots – the place where it all began.

The Alumni Team organizes a fleet of events throughout the year engaging alumni across batches. We facilitate celebrations like the Reunions, where older batches come together after years to meet and relive their college days, and our Degree Distribution ceremony where we mark the entrance of the youngest Alumni into our prestigious Alumni Association of over 6000 members. We conduct sessions where we host our Alumni to share their knowledge on various relevant matters with the current students and help them benefit from the years of experience. We continually highlight the achievements of our Alumni on all our social media platforms instilling pride in every member of the institution.

The Alumni Team strives to keep the Alumni Association closely knit, and promote goodwill and pride among every individual who is or once was a student at SIBM Pune.

DATABASE UPDATE

Every year, the Alumni Team performs a data updation drive for our Alumni database which holds the data of over 6000 esteemed alumni. We update their current details and consequently, provide relevant database information to the other student bodies who require the same.

This year emphasis was placed on having the least possible impact on the busy schedule of our alumni. The Alumni Team, therefore, floated a survey among the alumni community to fill in their details, throughout the year, in case they had any updates.

The formal process to verify the entries and update for changes was started in the month of August wherein the newly inducted Interim tenure Alumni Team Members reached out to the members of the alumni community for verifying the alumni DataBase entries.

The updation of the database continues on a rolling basis throughout the year, based on updates received on LinkedIn, Reunions, Alumni Meets, through Batch SPOCs, and other leads provided.
