Quod, The Quizzing & Debating Society

Annual Report 2019-20

Quod, the **Quizzing and Debating Society of SIBM Pune** provides students with a platform to participate in extempore, debates, quizzing events etc. which enhances their awareness and helps them build analytical skills. As future business leaders, it is very important for all the students to be a part of healthy discussions and debates. We facilitate a platform for students to talk, discuss and debate through various competitions enabling them to think on their feet and making them industry ready.

Quod's philosophy lies in establishing a relationship between theory and application of the learnt concepts, implying that the magic happens beyond the textual knowledge. Therefore, this year we have gone a step further and conducted numerous and varied quizzes and debating competitions, with each of them adding unique value to the participants, who will eventually go on to win major competitions, thus bringing laurels to SIBM Pune. Through debates, preparing and delivering of argumentation, Quod offers students the opportunity in critical thinking, development of their academic research skills, improvement in their communication abilities, coming up with solution of problems in a creative way, and an increase in their overall self-confidence. Debates help students to express their views in an effective manner and to respond to arguments in a cogent fashion, which is necessary for students in any B-School as it gives the students the necessary armour to tackle the corporate life awaiting them. As Francis Bacon said "**Knowledge is Power**", general knowledge contributes to personal enrichment and a better understanding of the world as a whole. Quod not only helps foster a desire for knowledge and boosts confidence among the students but also provides a platform for students to participate in inter college quizzing competitions. Besides the obvious benefit of improving and expanding one's knowledge, the style of offered quizzes is designed to inculcate **fun** and active participation among students.

Quod, has come up a long way since its inception, organising more events than any other SIG on the campus. Its flagship event, Ridges and Furrows, an inter-college quizzing competition not only gives an opportunity to sharpen one's quizzing acumen over an array of subjects but also gives an opportunity to compete with the best minds in the country.
